FAST PLAYING BY PEOPLES

Gave Morrisville Team 27 to an injury received in the game with Montpelier Friday night, played a fine Victory over Spaulding

VISITORS' TEAM WORK WAS EXCELLENT

Shot in an Exciting Contest

to 20 in favor of the visitors.

game. Their passing was the best that Spaulding, Mann got three baskets from has been witnessed here this season, the floor and Geals and Nichols one each They seemed to be able to get rid of the during the same time. ball from any position and almost never failed to land it in the hands of one of their own men. Spaulding was by no means asleep in the game in spite of the fact that they got the small end of the score, for they played, in the opinion o most of the spectators, as well if no better than they have played before this year. True, their work was not as spec-tacular as that in the Montpelier game but with opponents that cover as well as the academy team does there is little chance for long dribbles or easy shots. | Ti

The local team did not, in the game periods. Saturday evening, show the accuracy in shooting that has been a feature of their previous home games. Time after time the ball struck the rim of the basket | only to rebound into the hands of a P. A guard. Very few fouls were called or either side and those were for minor of fenses, not a sign of ill feeling or intentional roughness being exhibited by eith-

943 DEATHS IN TEN YEARS. Baseball Leads in Fatalities with Two

Hundred and Eighty-Four.

A statistician supplies the information that 943 lives were sacrificed on the fields of sport during the last 10 years. Not a great many considering the number engaged. Baseball, which thousands and thousands play, heads the list, with 284 fatalities. Football is second with 215, automobile racing third with 128, and boxing fourth with 105. In this time 77 cyclers were killed and 54 lost their lives at horse racing. Of the strenuous games, wrestling has the best record, only 15 perishing on the mat. One of surprising facts is that 14 persons should lose their lives playing golf in 10 years. Golf is supposed to be an old man's sport. Nine were killed at bowl-

ing, but only one at lawn tennis, GARRISON IN MARINE FIGHT.

Bernstorff Blamed for Impression Wilson Has Changed Front

AT A RECALL

The Reported Annoyance Involves the Administration's Stand on Armed Vessels

with the latest developments of the submarine controversy.

a request for Ambassador von Bernstorff's recall on account of these activities is going too far, but it is a fact that such a danger might develop if the conduct to which the administration objects is persisted in

The new difficulties between the German ambassador and the administration changed front on the question of the immunity of armed merchantmen from attack without warning. President Wilson and Secretary Lansing are inclined to believe that the German ambassador has sought to influence the press reports in regard to the attitude of the United of the administration in Congress will States on this issue and there are evi-

lences of a keen presentment. It was pointed out by one official that ome European governments have on o casions handed their passports to diplomatic representatives who have attempted to influence the press.

This was the nearest of a threat that vas heard Saturday in a discussion of plain that, nothing had yet occurred clear, which would lead to any action on the lit; part of this government unless the irritation was continued.

It is understood that the irritation of the administration has been caused chiefly by the impression that has gained and that the United States adopted n international law has become severe. The belief, of some officials is that

ount von Bernstorff has pronounced the impression that the United States had adopted a definite policy on the question of disarmament. Members of Congress who heard Sat-

They quoted particularly the final paragraph of that memorandum which read:
"I should add that my government is impressed with the reasonableness of the argument that a merchantman carrying armament of any sort, in view of the character of the sumbarine warfare and craft should be held to be an auxiliary seriously considering instructing its offi-

Secretary Lansing has contended that this government never had definitely NEW ENGLAND committed itself to disarmament, but merely had advanced the proposal for the consideration of the belligerents. He objects now to the idea which has gained Proposed Increases Could Add \$147,485 ersed itself.

Nevertheless it is apparent that this s the construction which the opponents

DRINK WATER TO AVOID SICKNESS SAYS AUTHORITY

Glass of Hot Water Before Breakfast Daily Keeps the Doctor

Sanitary science has of late made rapid strides, with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to

attend to internal sanitation of the drainage system of the human body as is to the drains of the house. Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by open-ing the sluices of the system each morn-

ing and flushing out the whole of the in

ternal poisonous stagnant matter.

Everyone, whether ailing, sick or well should, each morning before breakfast, drink a glass of real hot water with a Washington, Feb. 21.—It was made teaspoonful of limestone phosphate in it, to wash from the stomach, liver and known officially here Saturday that Pres- bowels the previous day's indigestible ident Wilson and Secretary Lansing are waste, sour bile and poisonous toxins; ate necessary repairs to machinery in batthe Morrisville team secured five floor as improper activity on the part of the ting more food into the stomach. MILK RATES

Annually to Boston & Maine Revenue

Boston, Feb. 21.-The milk business in New England will yield the Boston & Maine railroad an added vevenue of \$147,485 annually if the proposed increase in carrying rates which the interstate commerce commission is now in vestigating is allowed to go into effect, according to a statement presented by counsel for the road at Saturday's dear-ing. Practically all of the additional revenue would be collected in this state, and more than half of it from milk shipped to Boston, the statement indicated. In making these estimates, Charles S. Pierce, counsel for the Boston & Maine, said that at present 101,549,621 quarts of milk were coming to Boston annually over that road. That was said to be approximately 80 per cent of the total milk supply of the city.

IN CASE OF WAR.

Wilson Urges Chicago to Lead Country in Preparing Red Cross.

Chicago, Feb. 21.-President Wilson in personal letter to A. A. Sprague, 2d. hairman of the Chicago chapter of the American Red Cross, made public Saturday, urged Chicago to lead the country in preparing the Red Cross to care for sick and wounded in the event that the United States should become involved in war. The letter said in part:

"In case of the misfortune of war, the men who are prepared to give their lives for the defense of their country deserve to find the people they protect ready and
